

# Clean Cities

## Fact Sheet

### About Clean Cities?

The St. Louis Regional Clean Cities Program is part of the U.S. Department of Energy's (DOE) Vehicle Technologies Office (VTO), Clean Cities coalitions foster the nation's economic, environmental, and energy security by working locally to advance affordable, domestic transportation fuels and technologies. Clean Cities coalitions have saved more than 8.5 billion gallons of petroleum since its inception in 1993.

### Our Mission:

To foster the economic, environmental, and energy security for Eastern Missouri and Southern Illinois by working locally to advance affordable, domestic transportation fuels and technologies.

### Success stories:

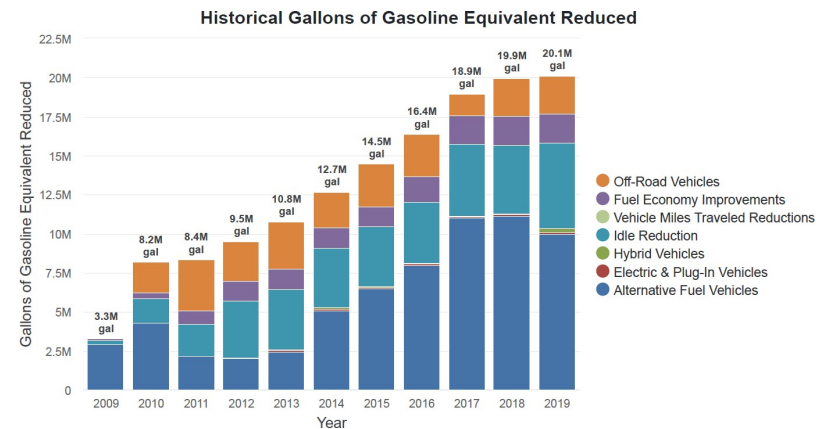

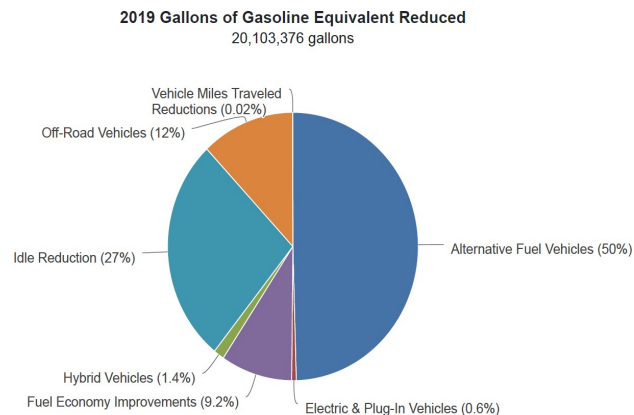

Anheuser-Bush: 98 Renewable Natural Gas-powered trucks over 2 million gallons a year

UPS: 78 Liquefied Natural Gas-powered trucks over a million gallons a year

Rockwood School District: High school students making biodiesel and selling it to Colleges

Propane, CNG and biodiesel school buses running the area

Re-powered 9 tug boats on the Mississippi that on average save 30% fuel and cuts emissions over 90%
